Aligarh, UP, India

EDUCATION

SRM Institute of Science and Technology (SRMIST)

B.Tech – Computer Science and Engineering | Current GPA - 9.83

- Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Ghaziabad, UP, India

Aug 2024 – Aug 2028

TECHNICAL SKILLS

Languages: Java, Python, C++, C, SQL

Frameworks: FastAPI, TensorFlow, Keras, OpenCV

Databases & Cloud: PostgreSQL, Supabase, Oracle Cloud, Google Cloud

Tools: Git, GitHub, VS Code, IntelliJ IDEA

Concepts: DSA, OOP, REST API Design, Neural Networks, CNN, Transfer Learning, NLP, SDLC

PROJECTS

SecureChat – Face-Authenticated Messaging System | Python, FastAPI, React, DeepFace, MongoDB

Ongoing

- Engineered a device-independent biometric web login eliminating mobile dependency; built **4-layer AI threat detection** (blur, screen replay, multi-face, lighting) blocking spoofed logins at 50+ risk score.
- Developed **11 REST APIs + WebSocket** for real-time chat with JWT auth, liveness detection, and QR session login – end-to-end secure messaging system.

INDIAIN – AI Career Intelligence Platform | Python, FastAPI, PostgreSQL, React

Ongoing

- Built NLP resume parser (**~85%+ accuracy**) + job-matching engine improving relevance by **~30%**; FastAPI APIs at **<200ms latency** with **~25% backend optimization**.

Road Damage Detection System | Python, OpenCV, Computer Vision

2025

- Built a real-time dual-mode CV system (static + live video) detecting potholes/cracks at **85%+ accuracy** with automated alert logic, simulating smart city infrastructure monitoring.

AI Image Recognition Model | Python, TensorFlow, Keras, OpenCV

2025

- Architected an end-to-end CNN pipeline for multi-class image classification achieving **90%+ accuracy** via data augmentation and transfer learning; certified by DevTown, Microsoft & Google.

EXPERIENCE

AICTE – EduSkills (Google for Developers AI-ML Program)

Jan 2026 – Mar 2026

AI-ML Intern (Virtual) | **Grade: O (Outstanding)**

India

- Selected from thousands of applicants nationwide; engineered CNN-based object detection and image classification pipelines deployed on Android via TensorFlow Lite, simulating enterprise ML workflows.
- Completed 10+ modules on Neural Networks, Transfer Learning & Model Optimization, maintaining Outstanding performance across all assessments and project submissions.

CodSoft

Aug 2025 – Sep 2025

Java Programming Intern (Remote)

India

- Shipped 3+ production Java applications using SOLID OOP principles; reduced code error rates by **30%+** through systematic debugging and structured documentation.

GDG on Campus – SRM IST Ghaziabad

Aug 2025 – Present

Core Member, Tech & Media

Ghaziabad, India

- Led cross-functional teams of 10+ across 5+ tech events; drove **40% growth** in campus community reach through strategic content and event execution.

ACHIEVEMENTS & CERTIFICATIONS

VisionX Hackathon – TRAE × GeeksforGeeks – Built SecureChat, a face-authenticated messaging system

2026

Smart India Hackathon (SIH) 2025 – Qualified 2 rounds | Govt. of India | **1 Lakh+ competing teams**

2025

Hackstay Hackathon (CSI SRM × Microsoft) – Delivered working tech solution under competitive time constraints

2025

AI-ML Virtual Internship Certificate – AICTE–EduSkills | Google for Developers | Grade: O (Outstanding)

2026

Java Programming Internship Certificate – CodSoft | OOP, SDLC, Production Java Development

2025

Oracle AI Explorer – Machine Learning, Neural Networks, Cloud AI Services

2025

AI Image Recognition Certificate – DevTown × Microsoft × Google | CNN, Image Classification, Transfer Learning

2025

HackerRank Certified – Java (Basic) & Python (Basic) | Core Java, OOP, Python Scripting, Problem Solving

2025

COMPETITIVE PROGRAMMING

LeetCode: leetcode.com/Pranjul2121 – Arrays, Strings, Linked Lists, Trees, Dynamic Programming, Sorting & Searching

HackerRank: hackerrank.com/pranjult21 – Certified in Java & Python; active algorithmic problem solver
